

rotoline

1000 V

Handle

Ergonomic handle with high-quality soft coating for comfort and grip. The handle is designed for powerful and comfortable tightening. Four different handle dimensions are available, depending on the blade diameter. Markings are applied showing standard information and product number.

Insulated blade

The insulating sleeve is integral with the handle, injected directly around the blade. 1000V insulation in accordance with electrical standard IEC 60900:2012 and mechanical standards ISO2380-1 and ISO8764-1. VDE certified.

Blade

High strength tempered and burnished steel for more precision.

A SHAPE
DESIGNED
WITH GREAT
CARE ...

Round end

The round end is absolutely smooth and shaped to suit the hollow of the palm for quick and precise rotation.

The round end of the handle is marked with the symbol of the blade type, and the pictogram associated with the type of Rotoline model: Classic, Turn or Turn & Block.

"Smart Diameter" blade

The blades are turned to offer no excess thickness of the insulating material at the top of the blade in order to reach screws set in narrow recesses.

Identification ring

Each screwdriver has a coloured ring on the handle. The ring colour corresponds to the type of screwdriver blade, allowing a quick identification.
